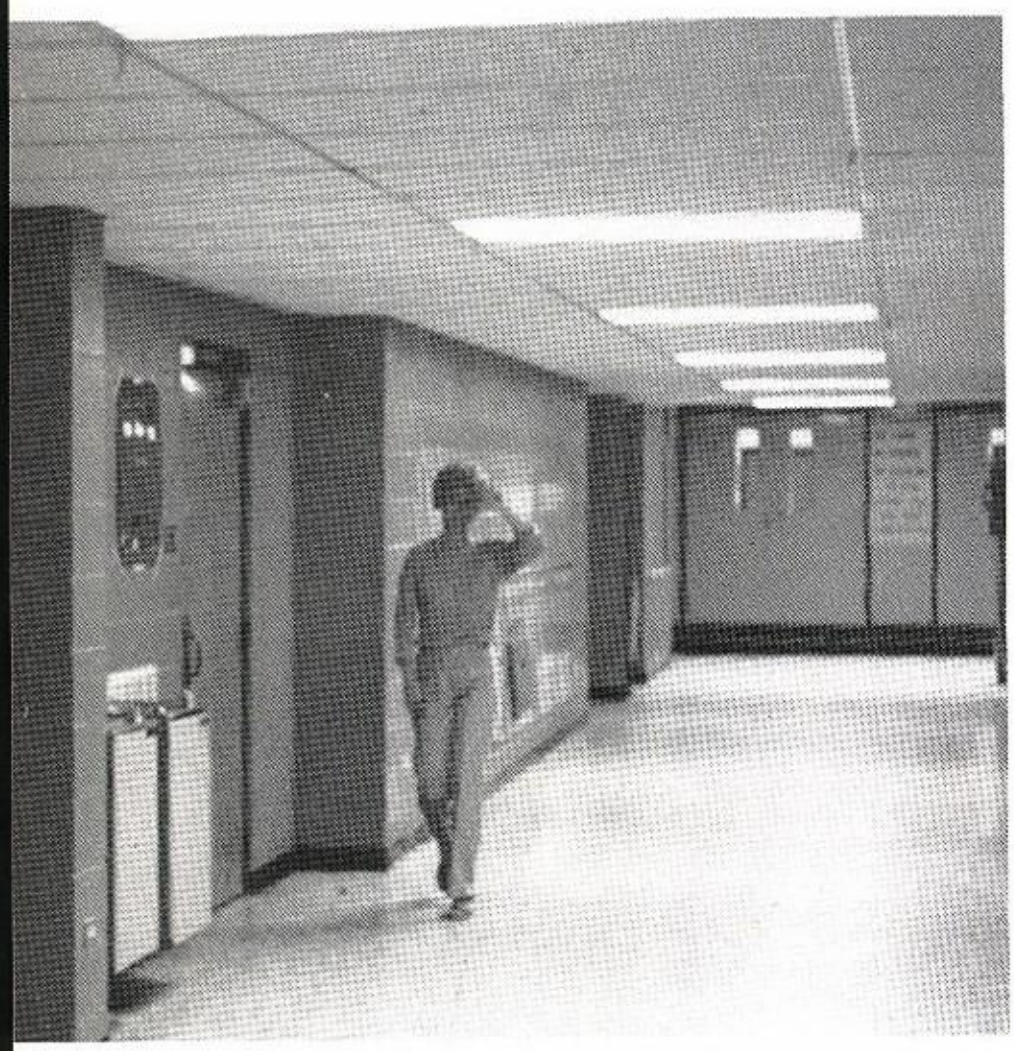
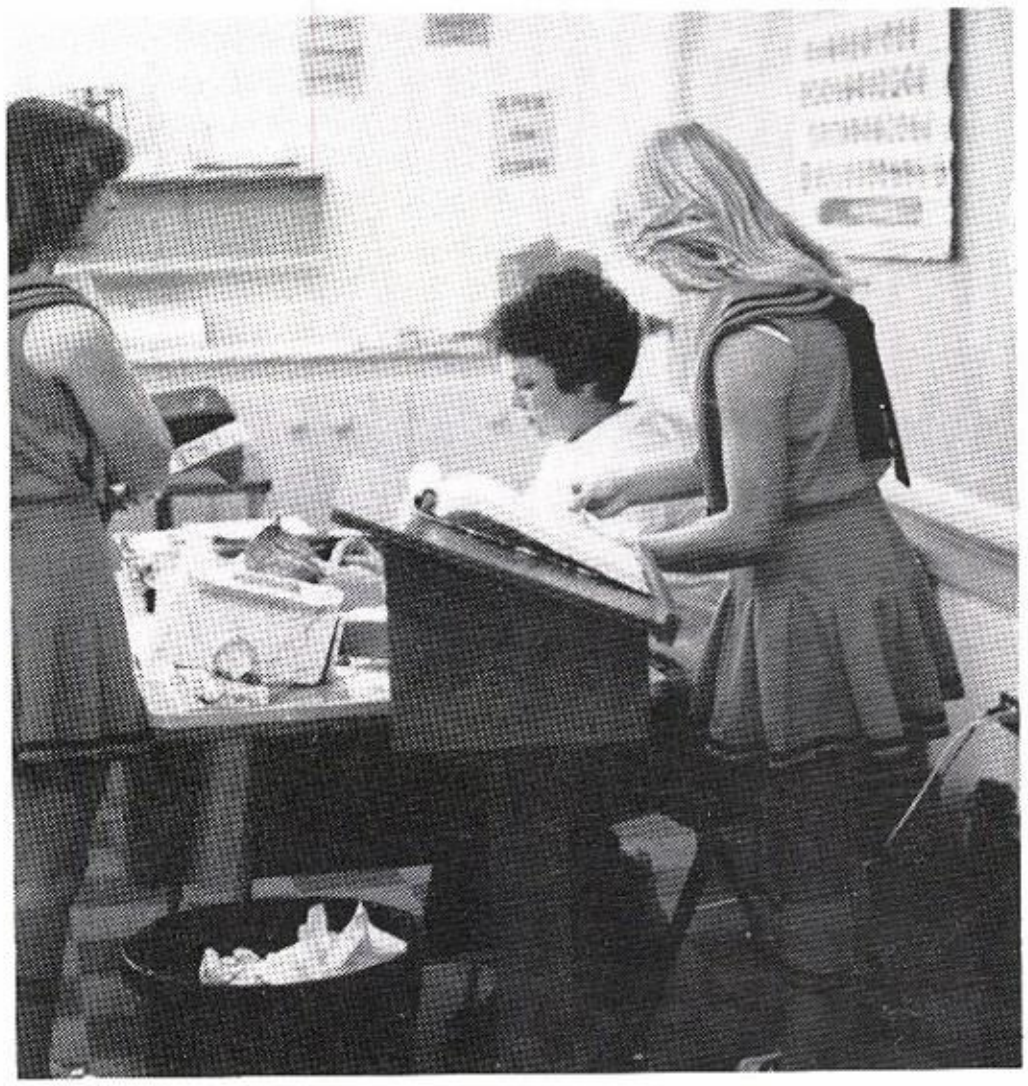
BUSINESS CLASSES AREN'T ALL BUSINESS

Teresa, What are you going to do to Jimmie?



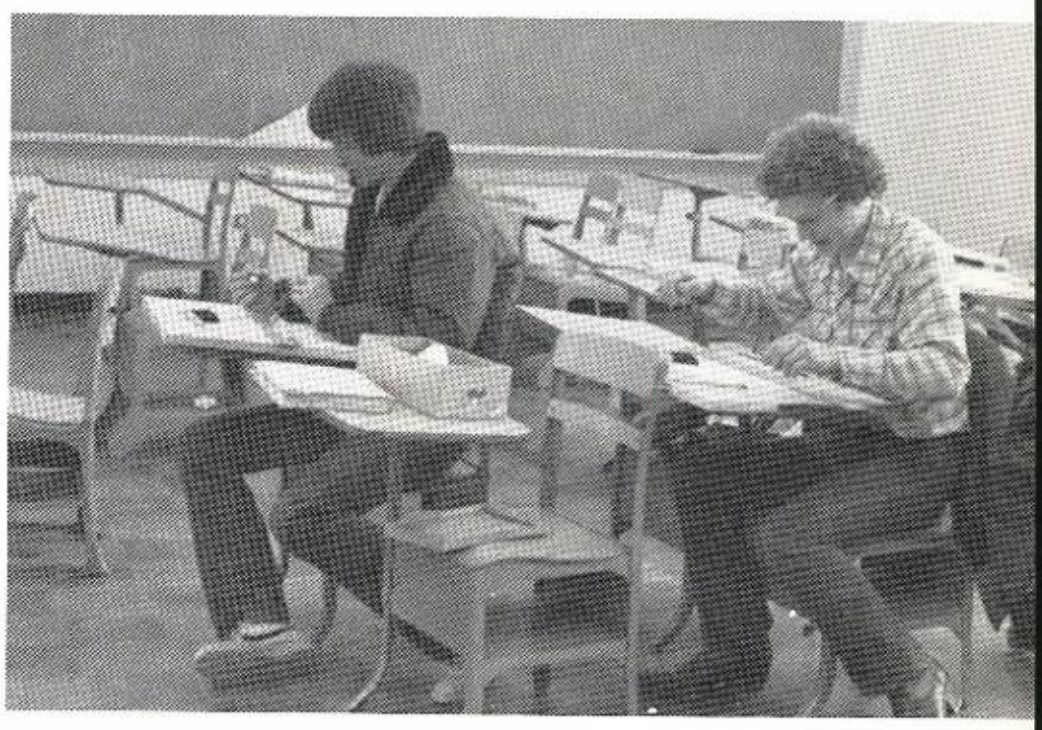
Mrs. Read disguised as Flo.



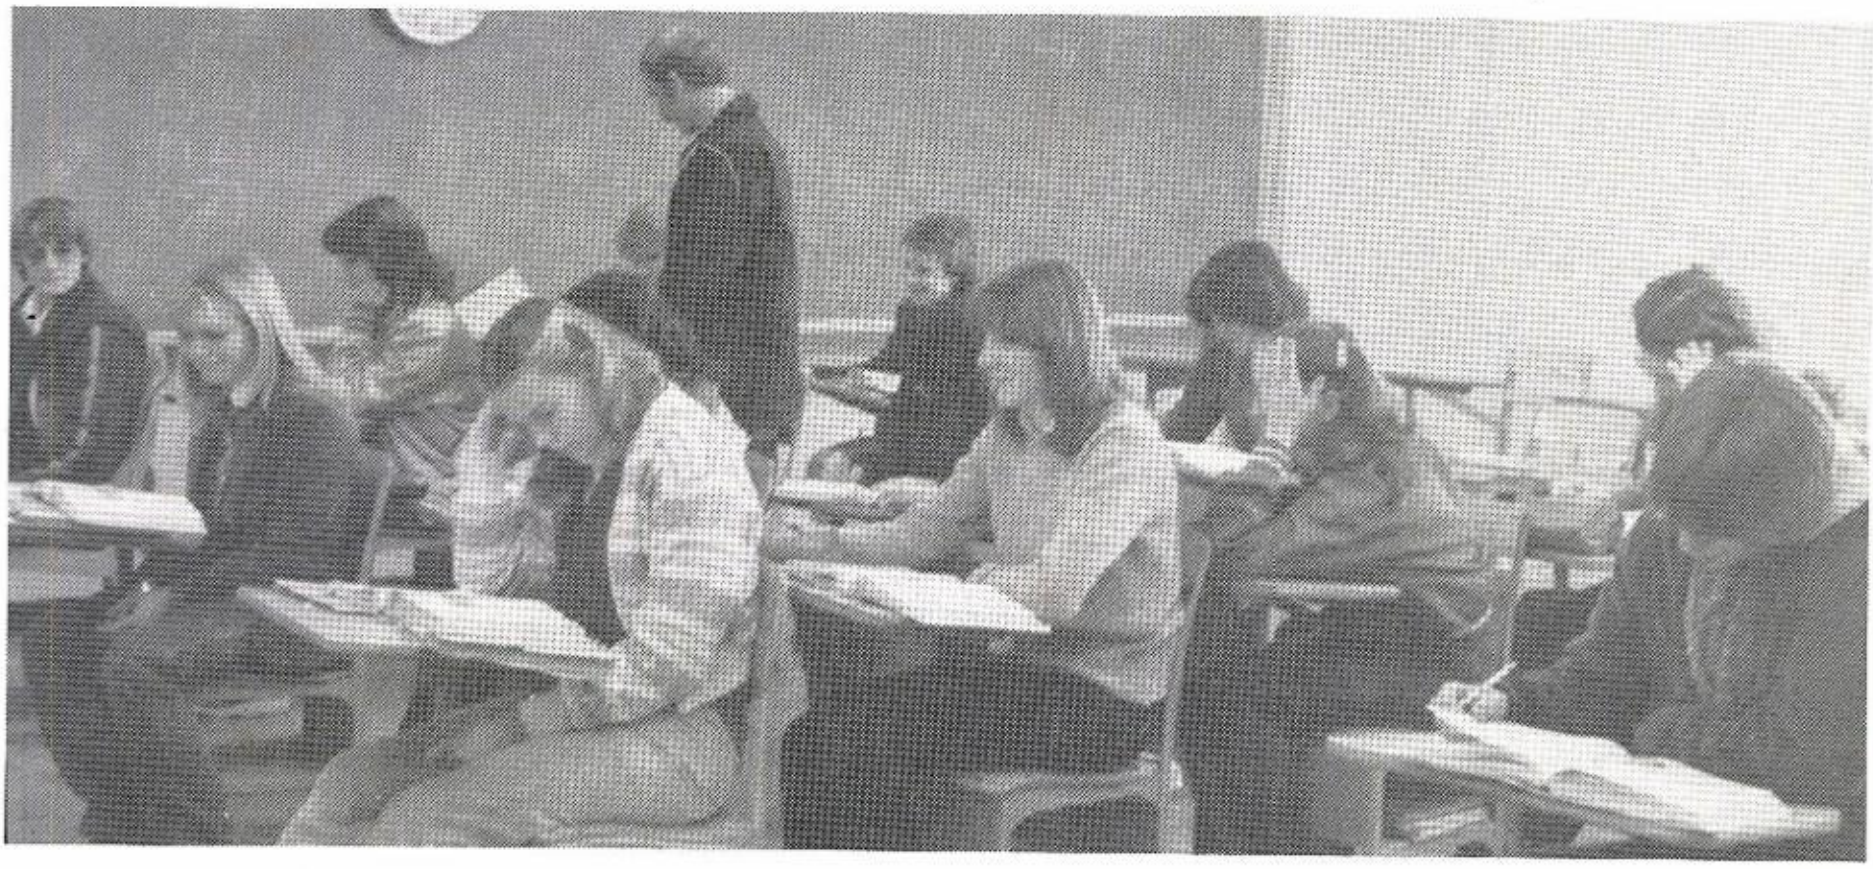
We need help, Mrs. Crabbs!

MATHEMATICIANS

Ya'll don't cheat.



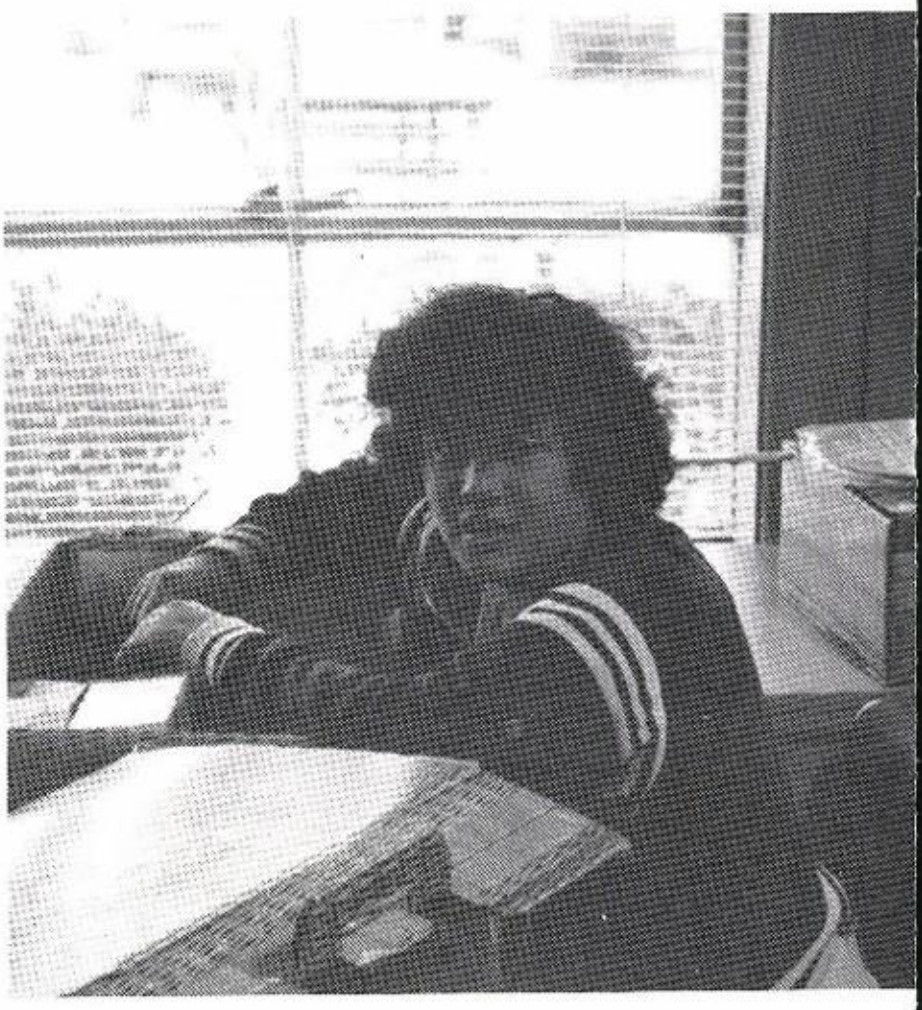
Two loyal students!



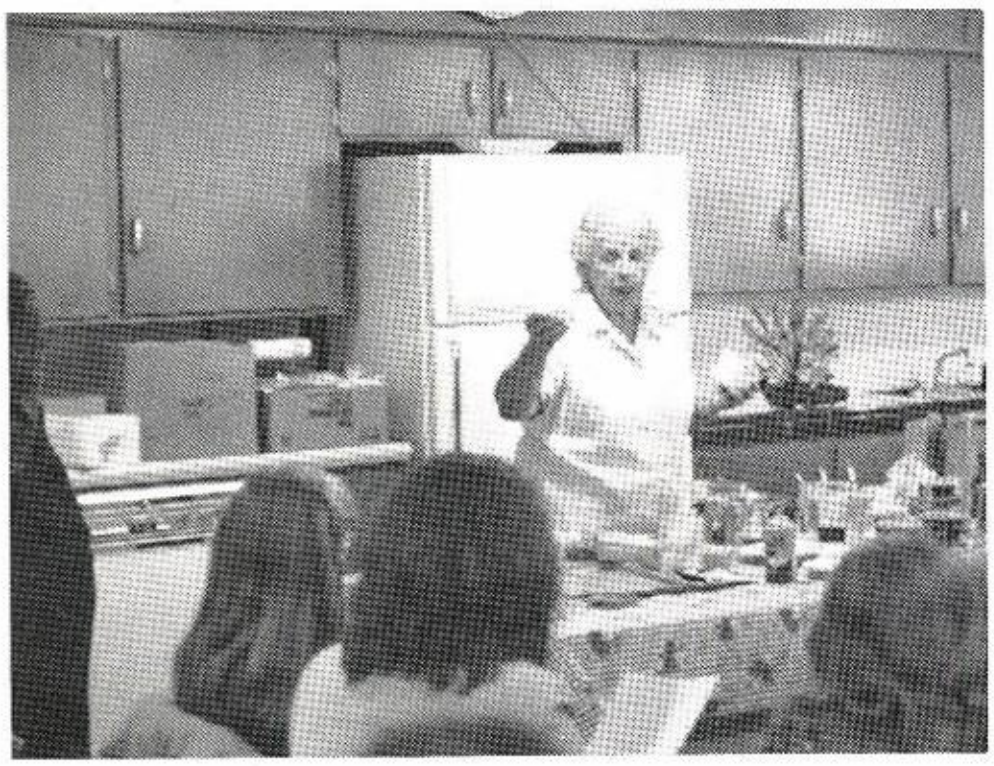
A helpful teacher watching over his hard-working class!

HOME EC DEPARTMENT

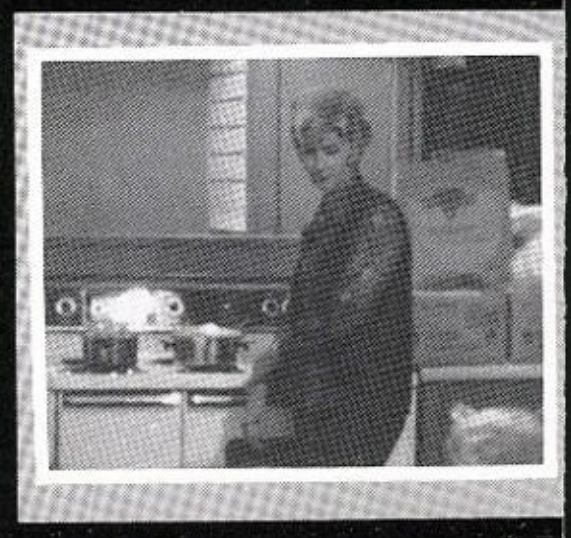
FHA members enjoy the meeting.



Hard working Melinda.



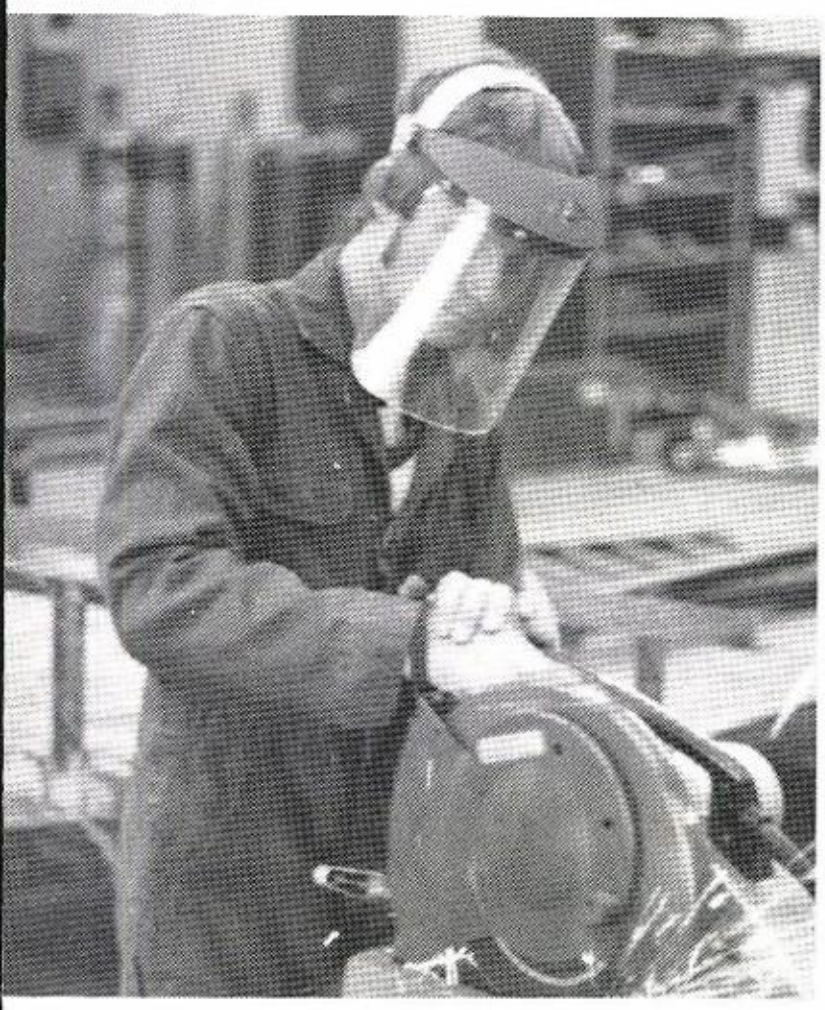
The Home Economics Department had an active year. They had a candy demonstration by Mrs. Richey (left). They sold many Tom Watt kits to make money for the FHA club. They had a style show presented by Dry Goods Department Store. These are only a few of the activities that kept them busy and entertained all year.



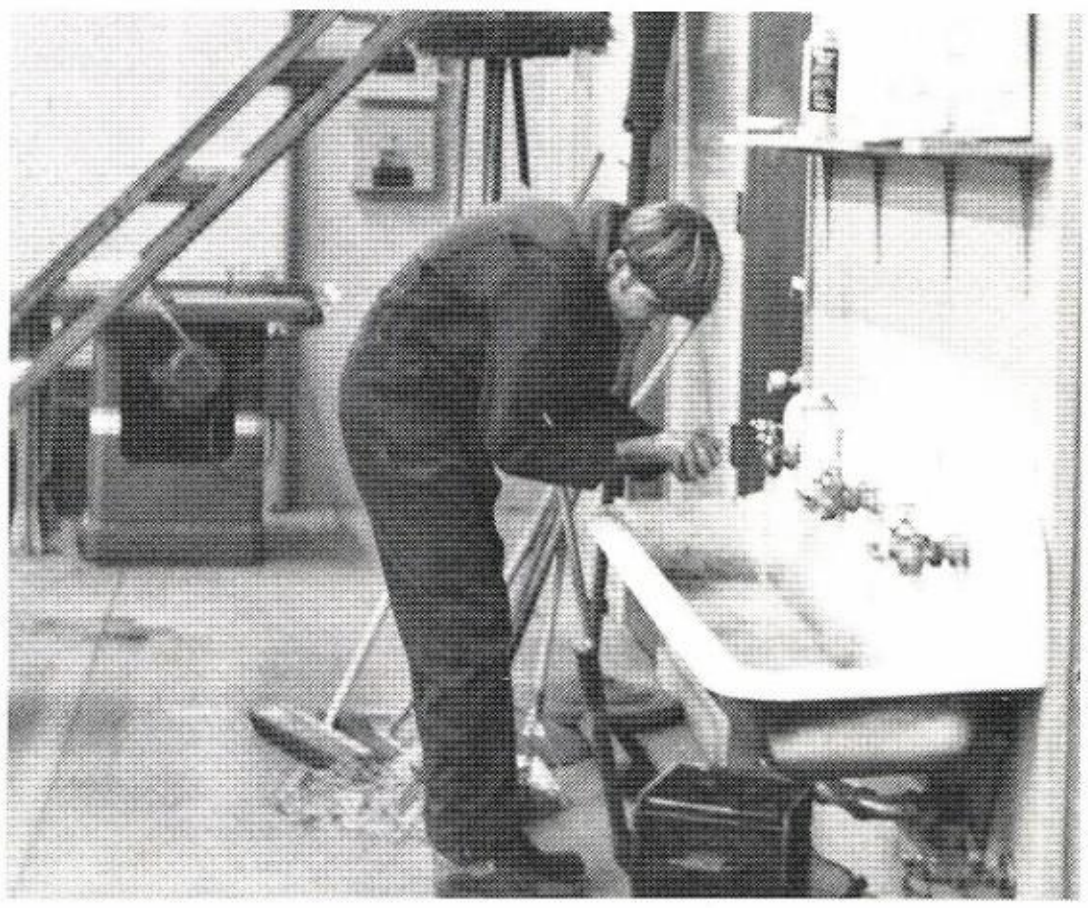
FARM AND AG DEPARTMENT

The Farm and Agriculture group stayed hard at work this year. They learned many techniques in Ag Mechanics, such as tractors, engines, power units, and cold metal works. They also learned many things about nature, such as animal, plant, and soil science. Their monthly meetings were interesting.

Danny working hard during Ag class.



mmy thinks he's a real pro.



Roger cleaning up.

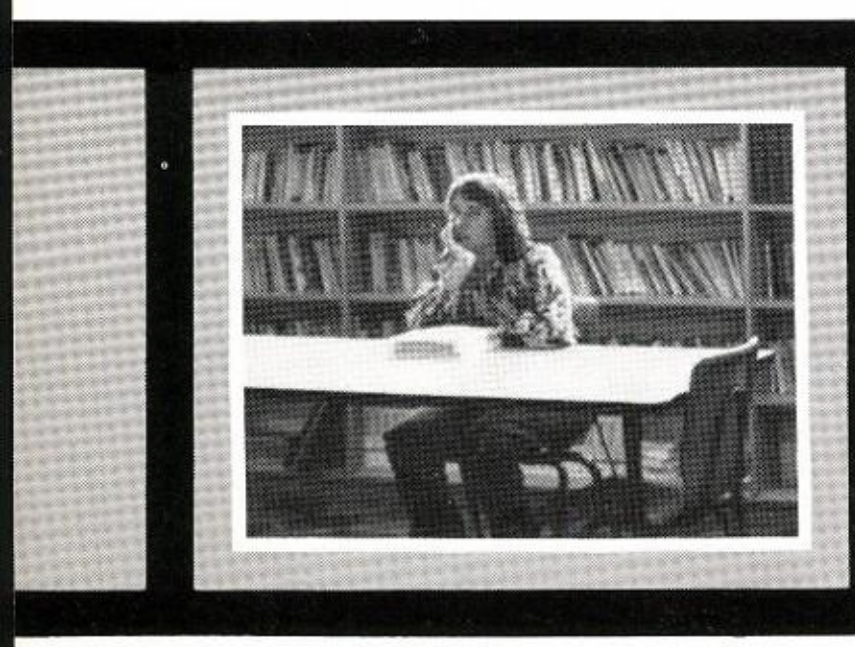
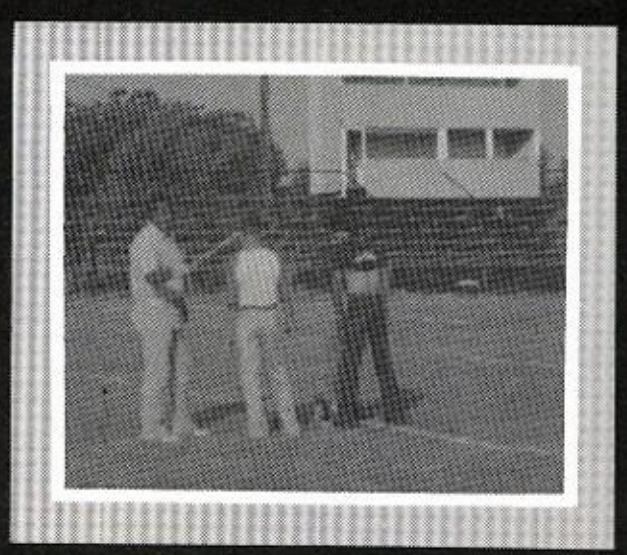
Beta Club Officers: Danny Watkins; President, Peggy Hood; Treasurer, Riley Kyle; Vice President, LaDonna Peek; Secretary, Jeff Brooks.

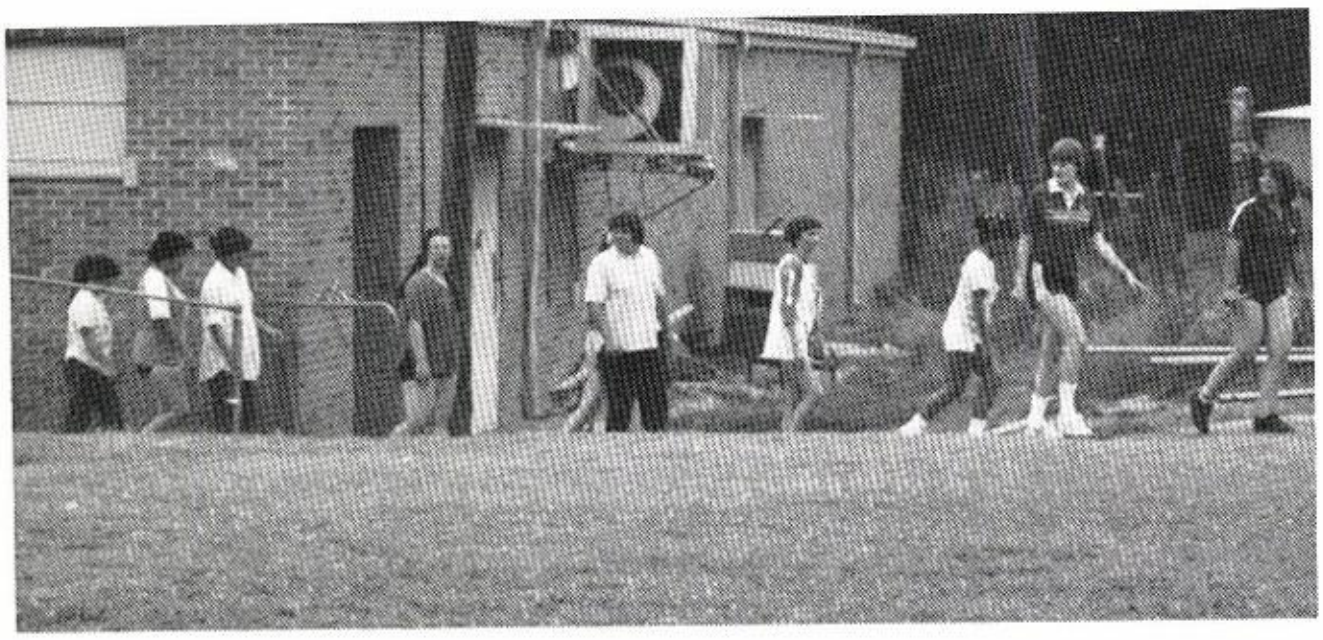


THE NEW RODEO RIDERS

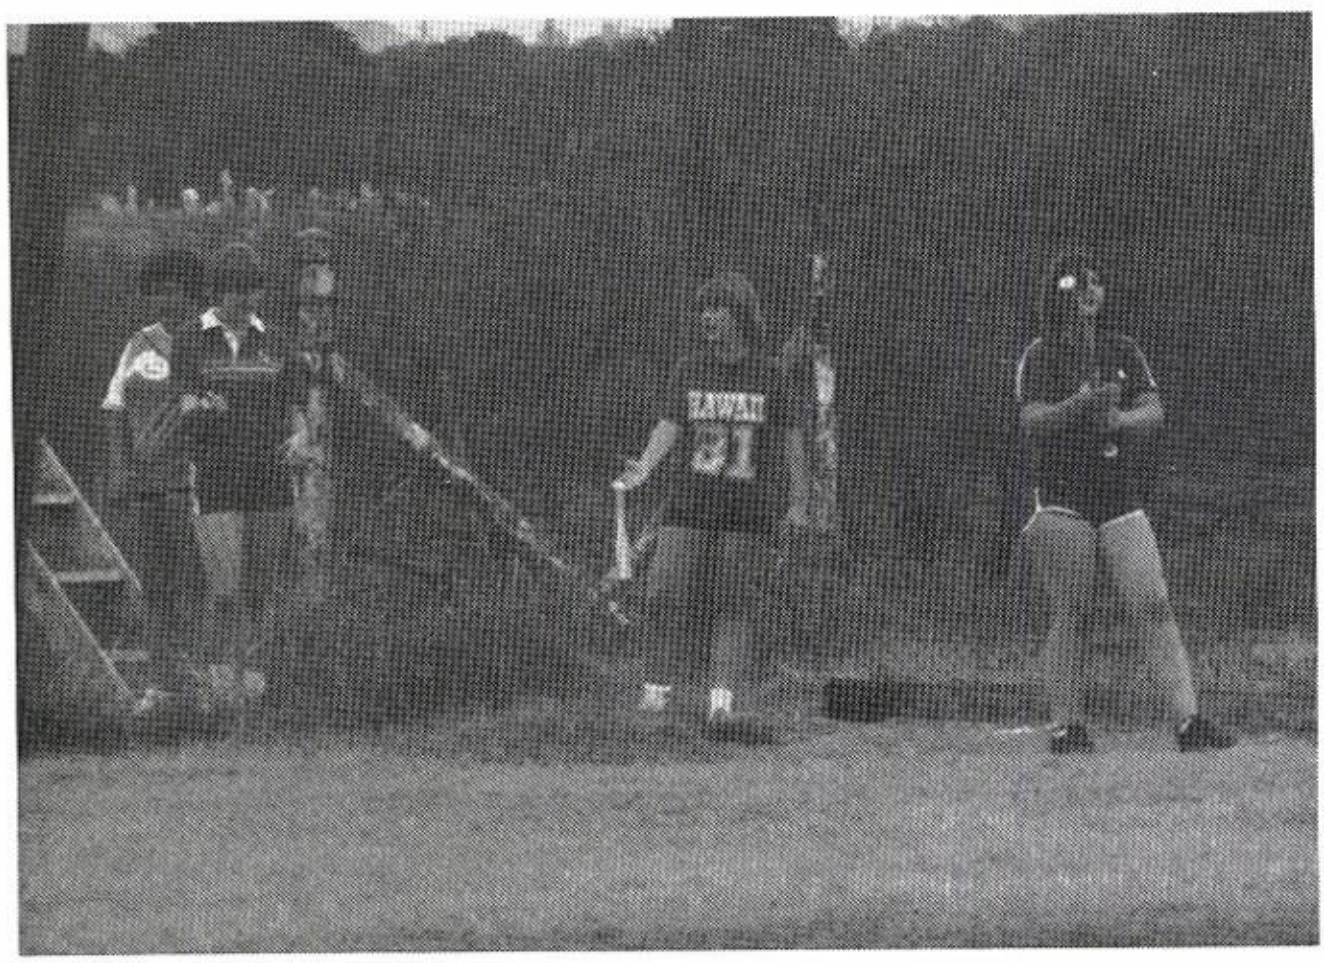
The new members of the Rodeo Club are Brandon Barrett, Britt Woods, Jimmie VanHoose, Kelly Buckner, and Chris Martin. This was the first year for a Rodeo Club; it went very well. Kelly Buckner didn't get to participate very much this year due to the fact that she broke her foot. The only rodeo that she participated in she placed seventh in the barrel race. Chris, Britt, and Brandon were the ropers of the bunch. Jimmie VanHoose was the bull rider. Their sponsor was Donnie Ashley. He took them to most of the rodeos and helped them whenever possible.



PHYSICALLY EDUCATED PEOPLE



Everyone hurries to play ball.



Where did it go, Judy?

Elementary and junior high students were comforted with the fact that "the force was with us" when Darth Vadar (alias Gary Chandler) appeared in each room on Halloween.

Indeed we are all glad that Mr. Chandler and his family landed in Chico for his first year as a principal. He taught special ed. and auto repair for five years at Goose Creek Schools in Baytown before he came here.

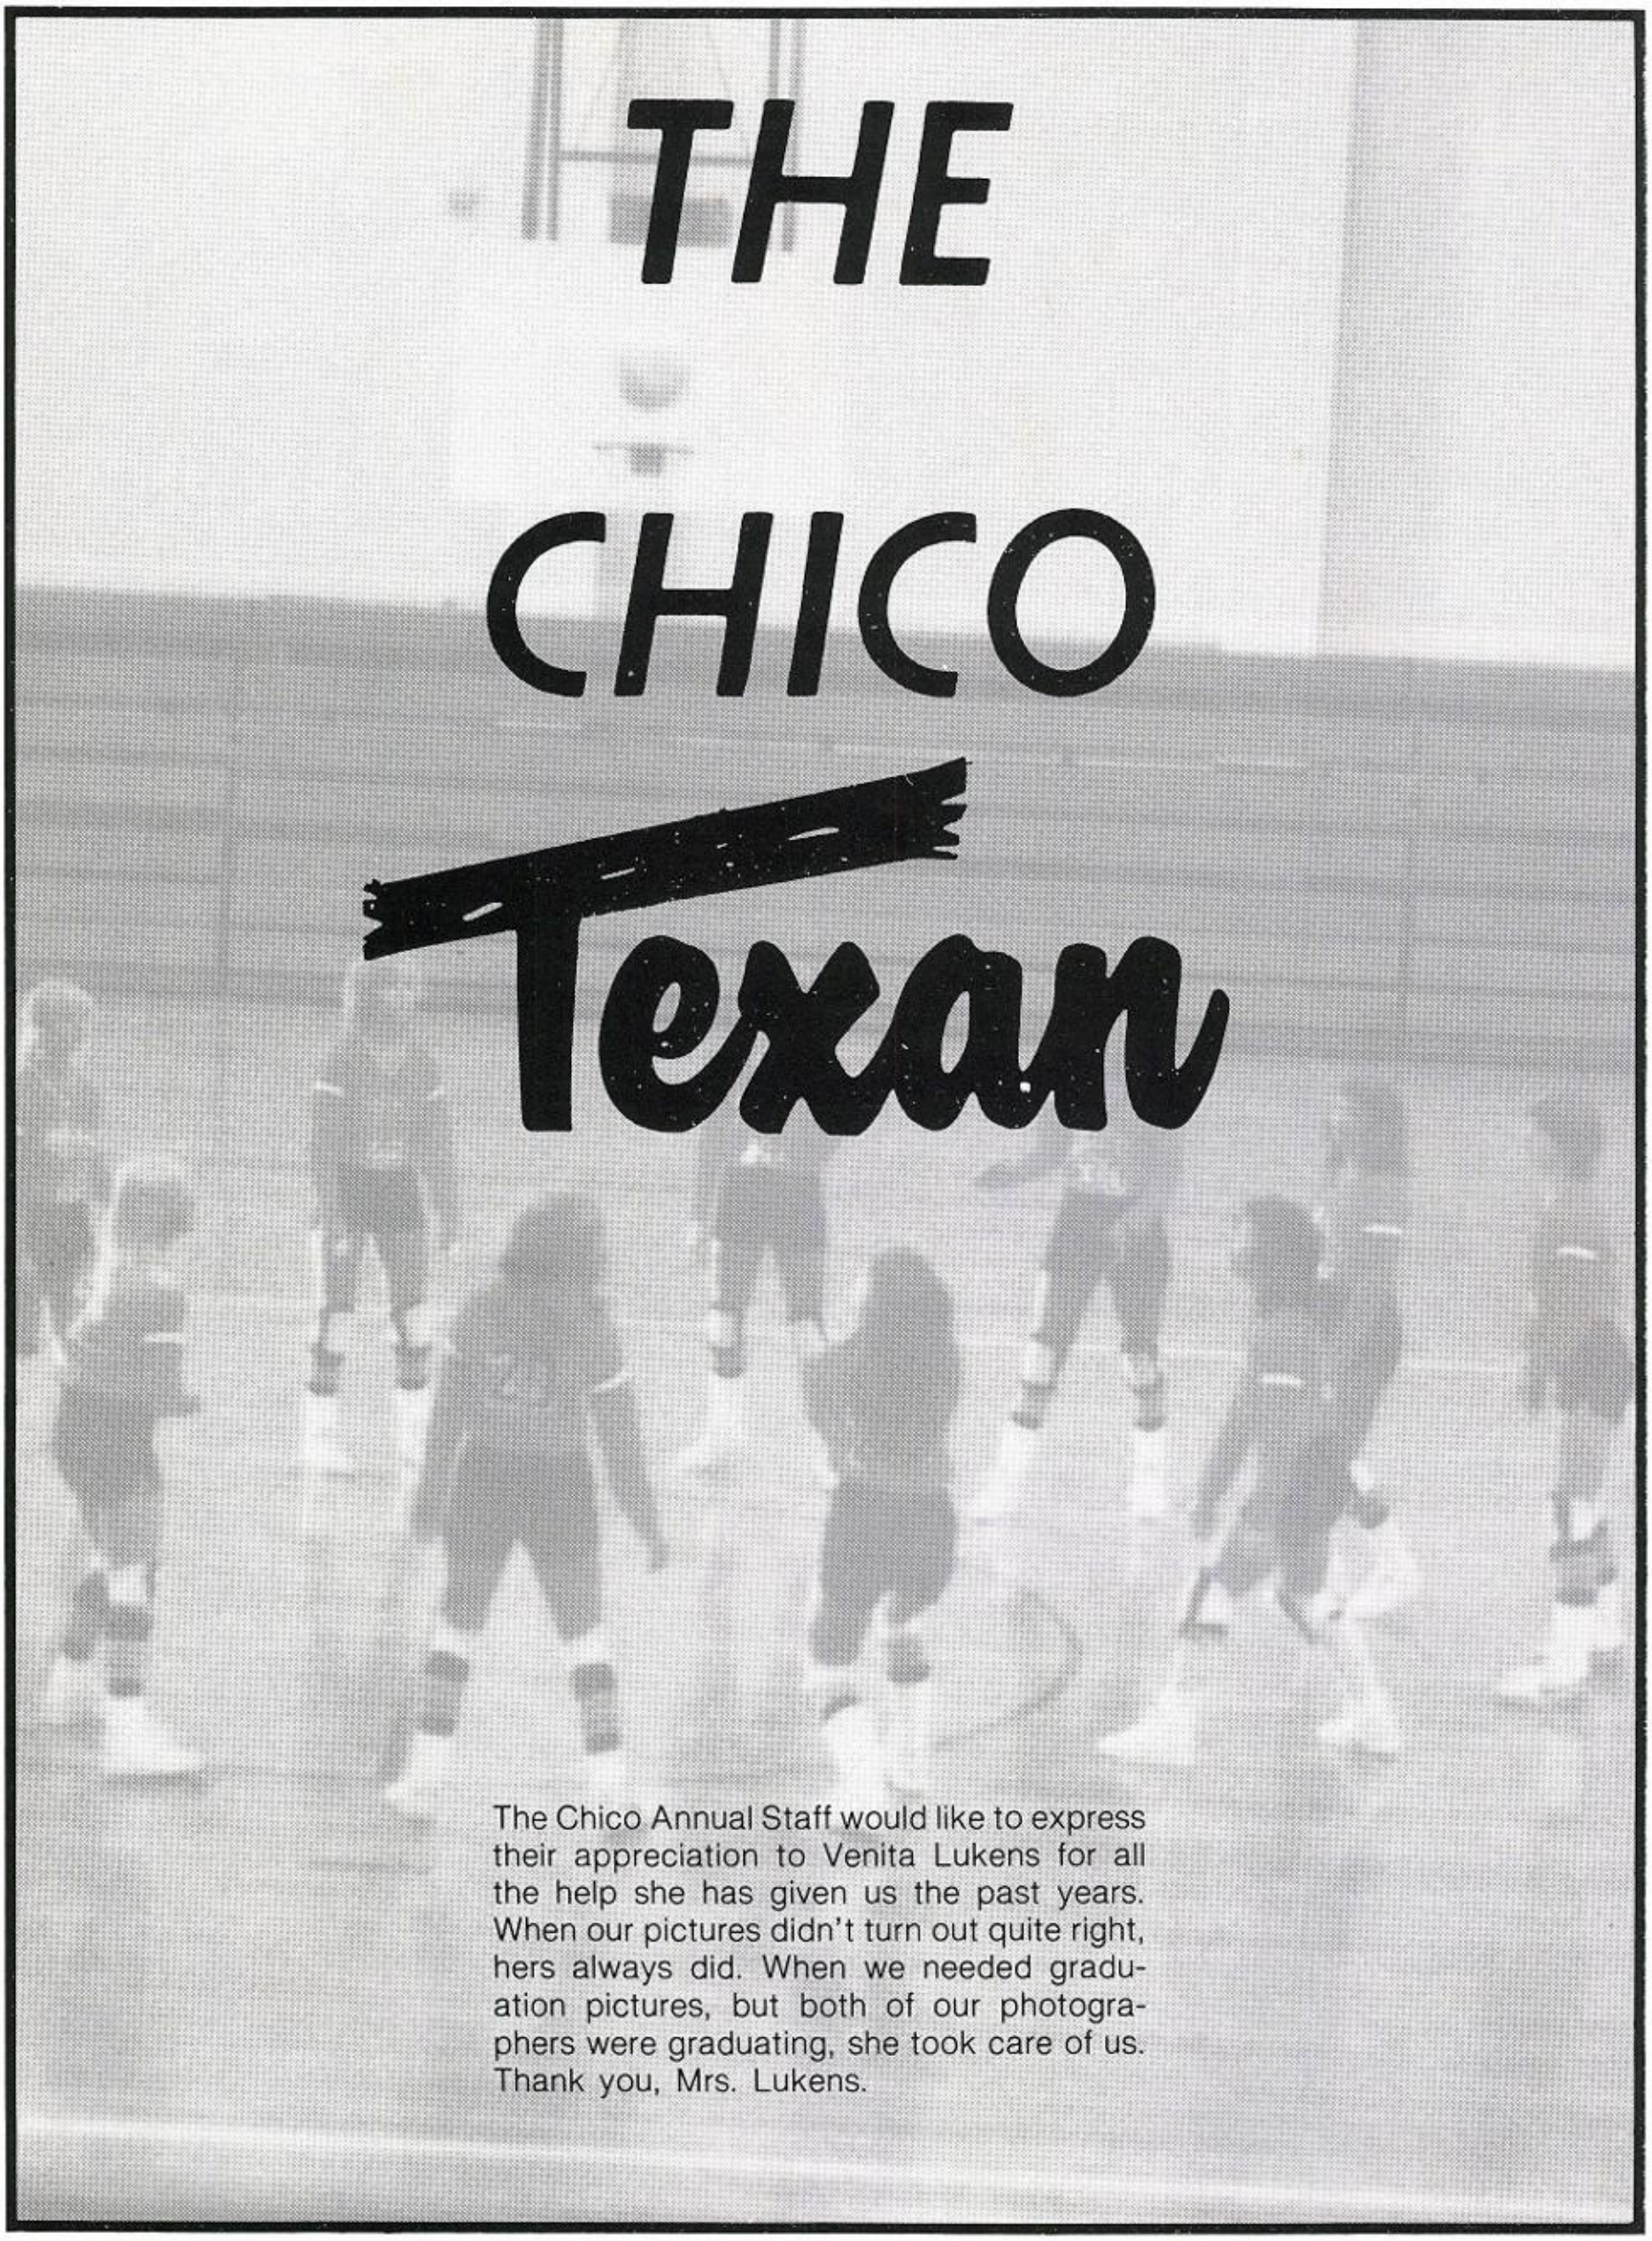
A WORD
FROM OUR
SPONSORS
Liann White



The Chico Annual Staff would like to express their appreciation to Venita Lukens for all the help she has given us the past years. When our pictures didn't turn out quite right, hers always did. When we needed graduation pictures, but both of our photographers were graduating, she took care of us. Thank you, Mrs. Lukens.

SAVING TIPS on electric air conditioning

Air conditioning provides lots of comfort during the summer months but for many thousands of homeowners it is also the biggest factor in the cost of electricity. On the average air conditioning accounts for about half of summertime electric bills.

Here are ways you can hold down the cost of air conditioning and still enjoy its comfort.

Central Systems

1. Set thermostat on 78° or higher, during the summer. Turn unit off if you'll be away from home several days.
2. Keep equipment at top operating efficiency. Have it checked seasonally by qualified serviceman.
3. Check filter every 30 days. Dirty filters cause equipment to use excessive electricity. If filter is permanent, clean by manufacturer's directions. If it's disposable, it should be replaced when dirty.
4. Keep furniture, draperies away from air outlets and returns. Clean grills often.
5. Close draperies and blinds to keep out direct sunlight.
6. Keep fireplace damper closed.
7. Proper home insulation keeps the heat out, cuts energy use. Insulation questions? Call TP&L.
8. Shade on roof and walls can reduce energy needed to cool. But trim trees, shrubs away from outside compressor unit. Keep it free of leaves, debris. If air flow is blocked, unit uses more energy.
9. Weatherstrip doors and windows, caulk cracks to prevent drafts and cool air loss.
10. Keep windows closed. Open outside doors as little as possible.

Window Units

Follow above suggestions, plus these:

11. Buy units with *highest* energy efficiency ratio (EER). Uses less electricity to cool. If EER is not on sales tag, ask for it or figure it yourself. Divide "wattage" into "BTU" capacity. Both figures are on unit.
12. Place unit where it'll get as little direct sun as possible.
13. Aim air outlets at lower half of doorway to next room to allow warm air from that room to enter at the doortop for recooling, recirculation.
14. Never vent air conditioner into garage. Ventilation is usually too poor for top performance of your unit.

Conserve electricity and you help conserve one or more of the fuels needed to produce it. Conserve fuels and you help assure that there will be enough to meet essential needs for electricity in the future.

When you pass a TP&L office, warehouse, generating plant or other facility, you'll see that we've turned off all non-essential lighting. And, in as many other ways as possible, TP&L is reducing its own uses of electricity.

If you would like additional information on conserving electricity, call the Customer Service Representative in the TP&L Office.

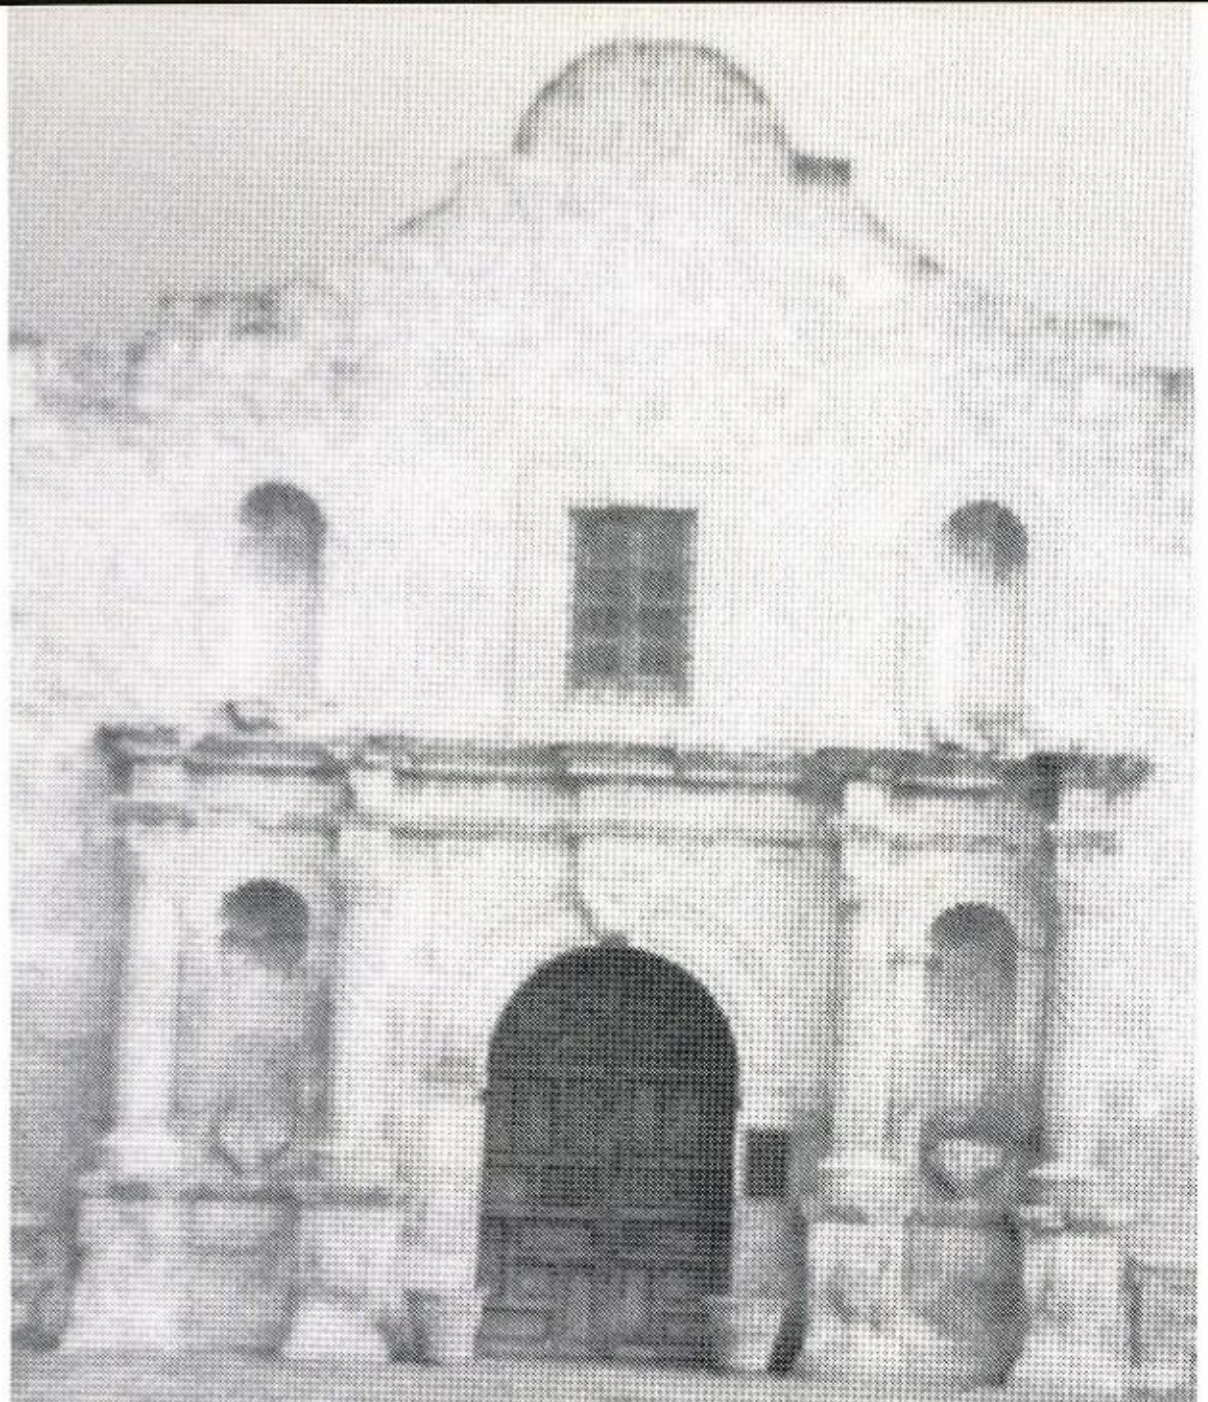
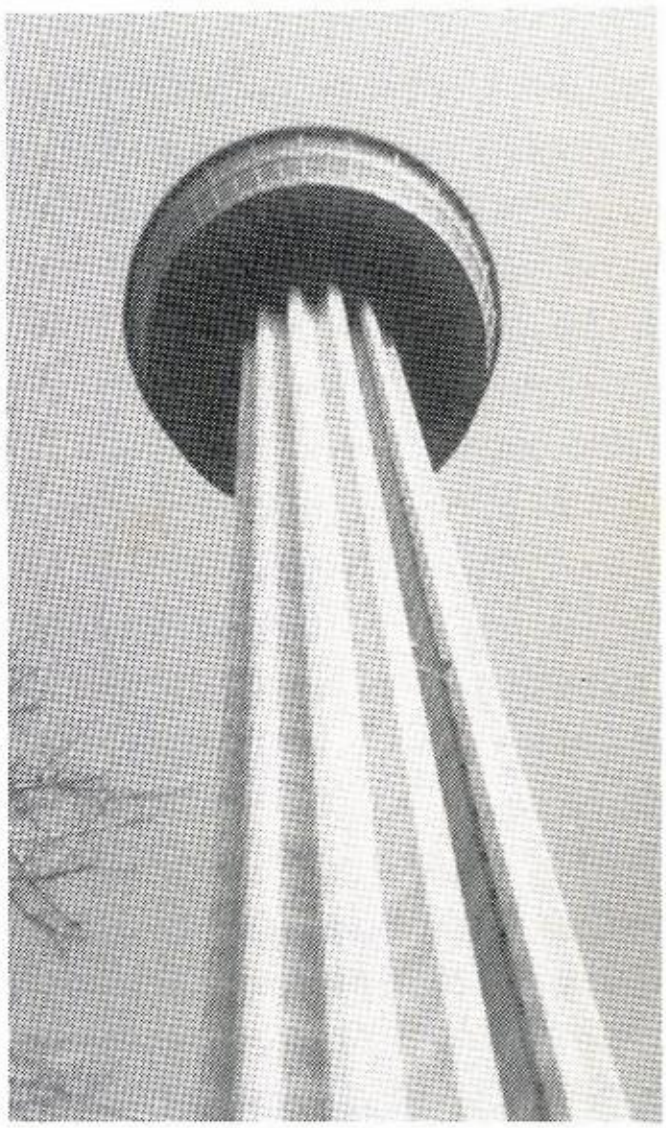
IN SAN ANTONIO



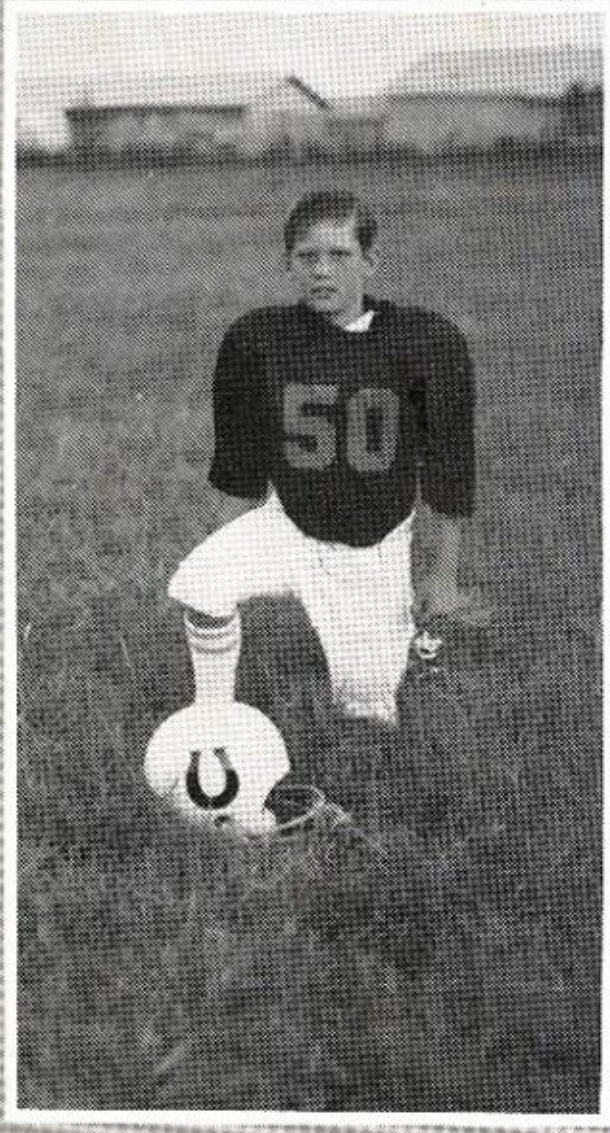
The Alamo was one of the landmarks visited.

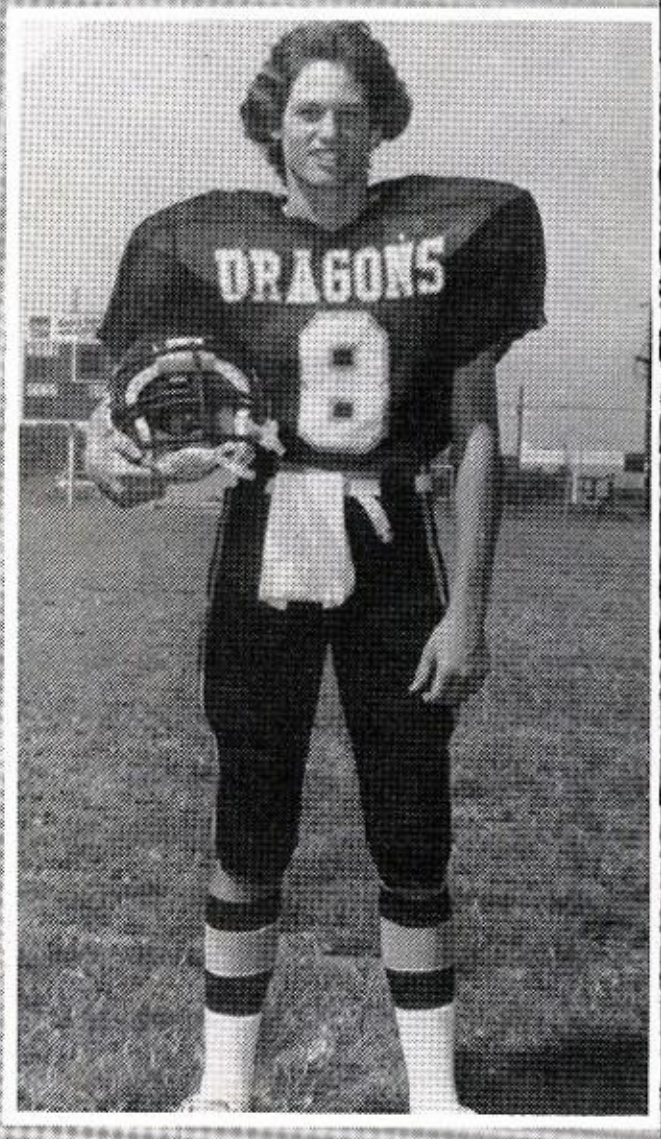


Several had lunch in the Towers of the Americas.

Our last morning in San Antonio was spent touring the museums in the brewery.

THIS BOOK IS PROUDLY DEDICATED TO





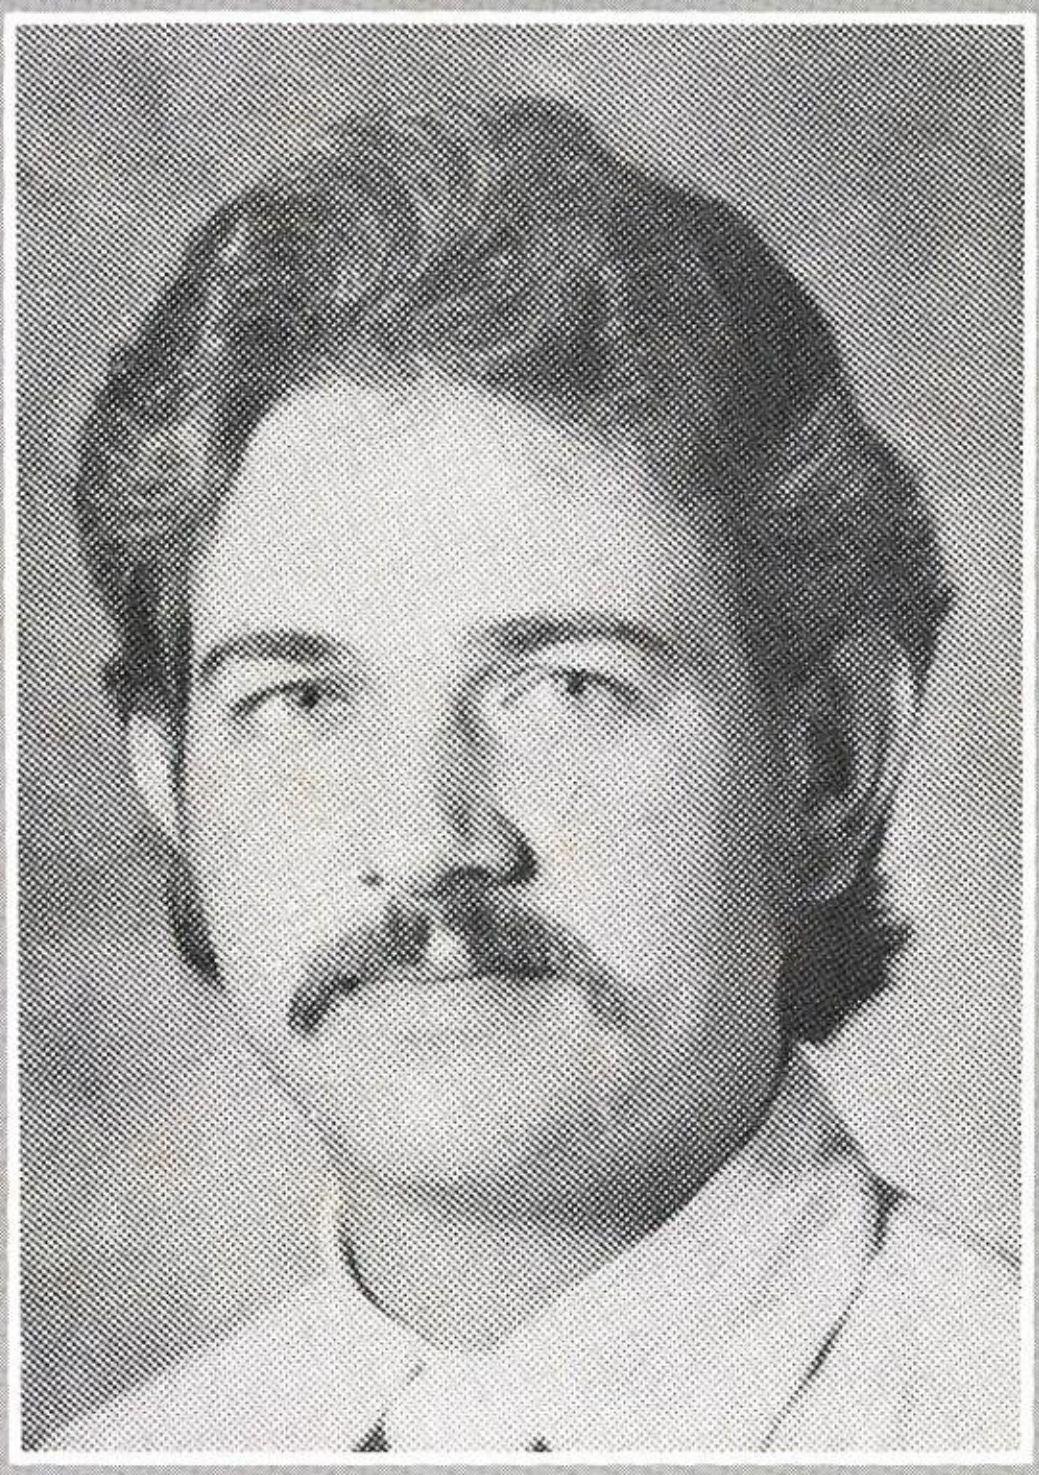
This school year began on a sad note. Scott Low and Jackie Carpenter were killed in a tragic electrocution accident the day before school started.

Scott was not just another football player. If we needed a smile to make our day, Scott's face was the first place we'd look. If the football team needed something to bring them together, Scott provided just what it took. If we needed someone to be our friend and make us feel better, Scott was the one we'd turn to. If one of us was down, he had the right words to cheer us up. We are better people because we knew and loved the "Rookie".

At the age of 15, Scott has accomplished more than most men could though they lived to be 100. His religion was very important to him and we all knew it, for almost everyone of us had been asked at one time or another to go with him to his church at Crafton. He was a member of the Fellowship of Christian Athletes. He didn't tell us what high values are, he *showed* us.

Scott was special.

SCOTT AND COACH CARPENTER



Jackie stood tall as a man and as a coach. This distinguished, handsome man gained the respect of his fellow workers and the student body.

His dream to be a coach didn't come easy. He worked full time to support his wife and two children while attending college.

And then Jackie came back to his hometown area to begin his career as a coach at Chico.

For one year Jackie lived the life that he wanted. Jackie was happy here. In return he made many junior high and high school students happy to have him as their teacher, coach and friend.

His sense of humor, his character, his appetite for sports and life will carry on forever.

Jackie was unforgettable.

By the time you hold this book in your hands, the Year of our Dragons 1982-83 will almost be over. Surely this was a "highly productive" year for all of us. We hope that you enjoy your yearbook as much as we enjoyed putting it together for you. And we also trust that these pictures will revive fond memories for many years to come.

THE YEAR WAS, SO THE YEARBOOK HAD TO BE, AND SO DID THE YEARBOOK STAFF
